SEMI-AUTOMATIC DEFIBRILLATOR DSA SAVER ONE

Ref. SJSAVE07

Efficient and easy to use: reliable for all rescuers even without minimum training

Description

Effective and easy to use: reliable for all rescuers even without minimum training.

Thanks to its interactive help with its pictograms, flashing icons and clear voice message, it will guide you through all the stages of the cardio-pulmonary resuscitation for a safe rescue. Designed for public use, it authorises in 3 steps, the administration of a fast and effective treatment against sudden cardiac arrests in order to optimise 1st aid care before the arrival of the emergency services.

In semi-automatic mode, it will recommend to the operator to press the shock button only in the event of sudden cardiac arrest. The fully automatic mode is designed to deliver the therapeutic shock automatically without pressing a button or other interventions from the operator.

- Small and very light, it works with a long-life lithium battery; warranty of 5 years or 300 shocks.

- Automatic daily test and status indicator (LED light)

- Display Screen for a text message

- Graphic bar indicating the capacity of the battery

- Information button with bilingual mode

- Built-in Metronome for better support during cardiac massage

- USB connection

- Internal 1 Gb memory

- SD memory card (optional)

- Each defibrillator comes with:

- 1 waterproof and shockproof carrying bag

- 1 pair of pre-connected adult pads

(warranty 28 months)

 24/01/2025 22:33:58 - For information purposes only, can be subject to change

- 1st aid kit
