SPHYGMOMANOMETER

Lian® Dessillons

A NEAT DESIGN: ERGONOMIC AND ELEGANT

The body design has been rounded to improve the grip.
The decompression valve is ergonomic and aesthetic.
The display size allows an easy reading.

ROBUST AND PRECISE

Its aluminium body, its ABS housing, its TPU protector and its shatterproof glass made it a shock-resistant device.
Precision clock making mechanism (german made) provides a graduated precision from 0 to 300mmHg with ± 3 mmHg on the measurement range.

NEAT QUALITY

Manufactured in France. German clock making mechanism. German bulb.

FITTED CUFFS

The Soft Cuff® with bladder are comfortable and soft.
The Clinic® cuffs are adapted to hospitals and clinics as they are immersible for decontamination.
