Description

Holtex instruments are all made of premium stainless steel (AISI 304, 410, 420 and 420A, depending on the type of instrument) to ensure good durability and corrosion resistance.

The steels come into contact with human tissues, so they must comply with international standards and regulations. Holtex guarantees you medical devices that comply with Directive 93/42/EC and ISO 13485 (2016).
