NC3 MONITOR NIBP+SPO2 COMEN

Ref. BCMONI01

COMEN

The compact, fast and accurate vital signs station, perfect for outpatient at the bedside.

Description

The NC3 monitor measures 2 vital parameters: non-invasive blood pressure (NIBP) and oxygen saturation (SpO2). Particularly fast and easy to use (starts in 1 to 2 seconds, PNI measurement: 20 to 30 seconds) Its weight and small size with optional trolley with wheels or a wall mount make it a very suitable instrument for outpatient at the bedside, in hospitals clinics or nursing homes, as well as in doctor's private practices.

- 6" LED backlit screen
- PNI and SpO2 accessories for all types of patients (adult, pediatric, neonatal) (delivered with adult PNI cuff and adult SpO2 sensor)
- Measurement of spot check (manual) or programmed (automatic) NIBP
- Integrated rechargeable lithium battery for a continuous autonomy of 12 hours
- Memory of 50 groups / patients data
- Weight: 1.25kg
- Options: Trolley, wall mount
