THE SINGLE USE PRESSURE CUFF EASY FUSE DDM

Ref. M11000

DDM

The single use pressure cuff made in France !

Description

The pressure infusion cuffs are medical devices designed for daily use in operating theaters, Intensive Care units or emergency transport vehicules. They can be used to manually accelerate infusion of blood and solutions when gravity alone cannot achieve the desired flow rates.

Easy fuse pressure cuffs are single use and compatible with different sizes of blood/solution bags: 500cc, 1000cc and 3000cc.

Optimized monitoring

- **Single use**, no cleaning and no disinfection
- blood/solution bag clearly visible
- pressure indicator with automatic overpressure regulator
- Controled decompression facilitated by 3 ways valve
- Résistant as made of TPU

All our pressure infusion cuffs are made in France in our Castelculier (Agen) manufacturing site..
